[lifelong@lourdes.edu](mailto:lifelong@lourdes.edu)

419-824-3707

### What is Lifelong Learning?

Educational, engaging, and social classes, trips, and lectures organized by Lourdes University. No exams or grades!

### Who can join?

Lifelong Learning invites all adults who find joy in learning, regardless of religious or educational background!

### What are the benefits of membership?

- Join a community of fascinating and inquisitive people
- Free admission to all monthly lectures
- Discounts on classes, trips and events

Membership is optional, but pays for itself if you participate in two or more events. All memberships expire on July 31 regardless of the date you join. To be fair, the cost of membership is highest in the fall semester and lowest in the summer semester.

### *Travel with Lifelong Learning*

**Birthplace of Innovation** Edison's birthplace, Maritime Museum, and more!

**Willow Run** The stories of people at the bomber plant during WWII, in a museum and on stage

**Lakeside** Tour an original Chautauqua community, Marblehead Lighthouse & Johnson's Island!

**Dinner with the Presidents** Meet Presidents and First Ladies for dinner!

### *Fall Kickoff*

#### ***Arrrrghhhh: A History of Piracy on the Great Lakes***

Christopher Gillcrist, Executive Director of the National Museum of the Great Lakes, will lead you on a historical and cultural re-examination of piracy and its implications for understanding Great Lakes history. No parrots or peg legs, but a healthy dose of thievery, mutiny, and other unsavory tales that illustrate why Hollywood should reinvent Jack Sparrow and place him on Lake Michigan in 1880! Christopher Gillcrist is Executive Director of the National Museum of the Great Lakes in Toledo. He has a BA and MA in History from John Carroll University and is ABD in Social Policy at Case Western Reserve University. Prior to his current duties he served as Executive Director of the Lake County Historical Society.

**Lunch:** lasagna with garlic bread, salad, and dessert! Vegetarian option available.

The **Cake Walkin' Jass Band** will perform the authentic New Orleans jazz  
Toledoans have been enjoying for 50 years!

**Date:** Friday, August 17; presentation at 11:00 am, lunch at noon, music to follow. All located in the Franciscan Center.

**Price:** \$12 per person for lunch, RSVP by Aug. 13

## Birthplace of Inventions

Thomas Alva Edison was one of America's most famous inventors. The incandescent light bulb and phonograph started with him, and his story started in Milan, Ohio. Visit the **Edison Birthplace Museum**, a registered National Historic Landmark and a meticulously maintained home filled with a collection of rare examples of many of Edison's early inventions, documents, and family mementos.

Edison so cherished his childhood home that he purchased it in 1906, and after Edison's death his wife and daughter opened Edison's birthplace to the public as a memorial and museum in tribute to the humble beginnings of a great man.

Across the street is the **Milan Museum** with galleries focused on local history rich in invention and creativity, as well as collections of glass and dolls. Explore the unique history of the Milan area from the earliest beginnings, through the creation, expansion, and decline of the Milan Canal. New glass galleries explore European and American glass from the earliest piece in the collection of Roman glass through the works of contemporary, local artists. The outstanding Mildred Smith Coulton Doll Gallery features over 350 charming examples of china, bisque, wax, papier-mâché and composition dolls.

Enjoy a lunch break at Berardi Family Restaurant with a satisfying hot buffet. After lunch, dive into the **Maritime Museum of Sandusky**, where we'll have a boatload of fun discovering the rich maritime history of the Sandusky Bay area. Through an extensive collection of maritime artifacts on display, explore the early days of boating, commercial fishing, and shipping on Lake Erie! Interactive exhibits illustrate boat-building, wetlands, and Sandusky's role in the Underground Railroad. In outdoor exhibits, you can board real Lyman's, see our professional boat workshop and see other vessels on display. When you're finished browsing the museum, visit the nautical gift shop!

Relive your childhood excitement at the **Sandusky Merry Go Round Museum!** Enjoy a fun and relaxed atmosphere while touring the Merry-Go-Round Museum and learning about the history and art of the carousel. The "oom pa pa" of the band organ, and the "painted ponies" on display will thrill and enchant you. Climb aboard the working Allan Herschell Carousel with the band organ playing. Meet artisan carvers creating and restoring carousel animals, as well as other types of folk art, back to their full beauty.

Wednesday June 20. Bus departs from Lourdes University parking lot M at 8:00 am and returns around 6:30 pm. \$99 for members, \$114 for nonmembers.

## Willow Run

The Willow Run Bomber Planet is a story of triumph and tragedy, nearly impossible wartime achievements, and how the men and women of the 20<sup>th</sup> century Detroit went to work and built the machines that won the War and saved the world. With a cast of thousands, from Rosie the Riveter to Edsel Ford, this is local and world history not to be missed!

The history of Willow Run is preserved at the **Yankee Air Museum**. Tour the museum to learn about the contributions of many “Rosies” to the war effort and how both women and men held win World War II for the United States in various ways. The Willow Run plant was built by the Ford Motor Company near Ypsilanti and was the first aircraft manufacturing complex to use Ford’s automotive mass production technique. The world’s largest factory at the time – mostly women workers – turned out B-24 Bombers at the rate of one every 55 minutes! Our guided tour will trace the history of aviation from WWI to today, including exhibits about the Tuskegee Airmen and the WASPs (Women Air Service Pilots).

Lunch at the **Common Grill** is always a treat. A modern American bistro showcasing creative food and small-town charm, the Common Grill has been presenting fresh, imaginative American dishes for over 25 years.

After lunch, enjoy the world premiere of the play *Willow Run* at the **Purple Rose Theater**. The play follows the journey of four women who migrated from all over America to find new lives at the Willow Run plant. Along the way they overcome a multitude of challenges, learn to endure new sorrows, overcome deep-seated prejudices and forge new friendships. The play won the 2017 Edgerton Foundation New Play Award and includes original music by Ben and Jeff Daniels.

Thursday, July 26. Bus departs from Lourdes University parking lot M at 9:00 am and returns at 6:00 pm. \$117 for members, \$132 for nonmembers.

### **Lakeside**

'Chautauqua' began as a revolutionary cultural movement in the late 1800s, providing public lectures, religious programs and concerts during the summer months. Chautauqua was a social and cultural phenomenon that permeated rural North America until the mid-1920s. At its height, the Chautauqua Movement attracted millions to hear educators, preachers, explorers, scientists, politicians, singers and bands. Today only a handful of Chautauqua communities survive.

Lakeside was among the first communities founded as part of the Chautauqua Movement in North America, welcoming families to the Lake Erie shore for more than 140 years. A guide from the Lakeside Heritage Society will take us on a bus tour around the center of the beautiful Lakeside campus which includes 47 historic structures used for the summer Chautauqua program and glimpse Lakeside’s “painted ladies,” some of the oldest family cottages on the grounds among the 900 Victorian cottages in the town. Learn about the origins of this American cultural movement, highlighting what has made Lakeside such a longstanding success. At Heritage Hall Museum learn more about the Lakeside Chautauqua experience and the long list of speakers and performers to have come over the years, including Eleanor Roosevelt, Susan B. Anthony, Ray Charles, and many more.

Lunch will be at the Hotel Lakeside, a National Historic Landmark. Built in 1875, the hotel has an unbeatable view of Lake Erie and “Ohio’s Most Beautiful Mile,” a stretch of the southern Lake Erie shoreline prized for its flowers.

In the afternoon we will visit Marblehead Lighthouse and Johnson’s Island. The Marblehead Lighthouse was built in 1821 and is the oldest continuously operating lighthouse on the Great Lakes. Johnson’s Island was a camp for prisoners of war during the American Civil War. 150,000 men were incarcerated there during its three years as a prison camp.

Thursday, September 13. Bus departs from Lourdes University parking lot M at 8:00 am and returns approximately 6:30 pm. Price is \$93 for members, \$113 for nonmembers.

### **Dinner with the Presidents**

Meet past Presidents of the United States of America and First Ladies! Historical re-enactors in period dress will portray the famous couples for the evening. From the moment they arrive in period transportation, their characters will captivate you! Dinner will feature recipes from different White House

administrations and at least one president or First Lady will be at your table. Bring a camera to capture all the details! Some of the presidents in attendance will be Presidents Benjamin Harrison, George Washington, James Monroe, James Madison, Andrew Johnson, Harry Truman, Chester Arthur, and Lyndon Johnson. Suggested attire for men is a sport coat and tie and for women a dress or dressy pantsuit. Or dress up in period clothing for extra fun!

The dinner is hosted by the Marion County Historical Society and before dinner we will enjoy a tour of their museum. Housed in Marion's historic post office, Heritage Hall has exhibits of Marion's rich history including a collection on the life and career of Warren G. Harding, 29th president of the United States.

Saturday, November 3. Bus departs from Lourdes University parking lot M at 1:30 pm and returns approximately 10:45 pm. Price is \$99.00 for members, \$119 for nonmembers.

## CLASSES

### **The Mafia in Vegas**

John Scott

11:00 – 12:30, Monday, June 4 – 11

The American mafia is behind the modern Las Vegas gaming establishment. The casinos of Las Vegas went from Western themed gambling houses to modern glitzy glamorous casinos, all because of the American mafia. This class will discuss the foundation of modern day Las Vegas, and the rise and fall of the Vegas mafia.

John Scott is a Lourdes University history student who recently taught a Lifelong Learning class on the Kennedys.

### **Technology and Deception**

Dr. Susan Shelangoskie

11:00 – noon, Tuesday, June 5

Technology is in the news, and the news is not good: people worry that public perception can be altered by misinformation spread through social media, and even the U.S. Congress is considering regulating technology to make it safer. But this problem, and even this legislative response, is not new. In this talk, Dr. Shelangoskie looks back at the history of deception with proto-digital technologies like the telegraph and photography. Since the earliest days of these media, there has been a cycle of creative crimes and responsive regulations, resulting in entertaining stories! After reviewing examples, we will discuss solutions of the past and apply what we've learned to today's issues.

Dr. Susan Shelangoskie is a Professor of English at Lourdes University. She teaches courses in British and world literature, and specializes in Victorian literature, technology, and culture. Her scholarly work has appeared in journals such as the Journal of Victorian Culture and Nineteenth-Century Contexts.

### **Introduction to Beading**

Anita Tristan

11:00 – 12:30 pm. Tuesday, June 12

Come learn the fundamentals of basic beading! In this class, you will work with summer charms and colorful Czech glass beads to create your own unique bracelet and matching earrings. All materials will be provided, so just bring your creativity! Visit the Lifelong Learning website for an example of the earrings and bracelet. After several years of working under consignment at the Toledo Museum of Art, Anita Tristan and her twin sister founded Bonita Bead Boutique. They sell custom-made jewelry as well as share their love of beading with others through teaching.

### **Abraham Lincoln: Wartime President**

Dr. Dwayne Beggs

1:00 - 2:00 pm, Tuesdays, June 12 – July 10 (no class 7/3; meets 4 times)

After the election of Abraham Lincoln seven states seceded from the Union. The central issue, according to the states who pulled out of the Union, was "Slavery" (and concern that President Lincoln would bring "Slavery" to

an end). Once in office President Lincoln would take action that led to the secession of four additional states (the call for volunteers after Ft. Sumter was fired on). One of the central tasks for President Lincoln after taking office was to bring the Union back together, which would be accomplished through a bloody Civil War. Please join us as we examine “Abraham Lincoln the Wartime President.” During the class the following topics will be addressed: “Abraham Lincoln and Secession,” “Abraham Lincoln as Commander and Chief During War”, “Abraham Lincoln and the Emancipation Proclamation” and “Abraham Lincoln and Reconstruction.”

Dr. Dwayne Beggs is a professor of History at Lourdes University and has taught several popular classes on many military conflicts for Lifelong Learning. Dr. Beggs earned a M.A. and a Ph.D. in U.S. Policy History from BGSU. He also holds an M. Div. and served as a Youth Pastor / Associate Pastor for 22 years.

### **Supervolcanoes**

Laura Megeath

11:00 – noon, Thursday, June 14

Travel back in time to visit massive volcanic eruptions that have marshaled the energy that lurks, like a sleeping dragon, beneath the surface of planet Earth. Ancient eruptions have triggered drastic geographic changes as well as mass extinctions. Beyond Earth, explore the impact of giant volcanic eruptions around our solar system. Fly down to Neptune's frigid moon Triton, and onto the ultimate volcanic world: Jupiter's moon Io. On a visit to a legendary North American hot spot, Yellowstone National Park, we'll seek clues to the inevitable question: can a supervolcano erupt in our time? After the show in the Appold Planetarium, continue the conversation over lunch at the Lourdes Café (cost of lunch not included).

Laura Megeath is the Coordinator of both Lifelong Learning and the Appold Planetarium.

### **Dishing About Cooking Shows**

Mary Bilyeu

11:00 – noon, Thursday, June 21

Cooking shows used to teach us kitchen techniques, as they did when Julia Child

prepared omelets and Duck à l'Orange on *The French Chef*. Now, these episodes can be anything from instructional opportunities to frenzied games, fascinating travelogues or pure escapist entertainment. The shows can be fun, frustrating, and even food for thought.

Join Mary Bilyeu, The Blade's Food Editor, for a discussion of her favorite fare: PBS' *The Great British Baking Show*, the Food Network's *Chopped*, Netflix's *Ugly Delicious*, and BuzzFeed's *Worth It*. We'll watch clips and then chat about what we like, what we don't like, and how hungry we're getting as we assess the shows. (There's a reason this class was scheduled right before lunch.)

Don't delay: Register now, or else you'll be chopped!

Mary Bilyeu, who is completely obsessed with scrummy bakes (and avoiding soggy bottoms!), has been Food Editor at The Blade since 2014. She writes recipe features, columns, and updates about food news; showcases frugal finds in *Cheap Eats* videos; and introduces some of the Toledo area's most interesting food professionals - from chefs and bakers to farmers and kombucha brewers - in *The Full Course* interview episodes.

### **Take a Closer Look:**

#### **Soulsnorkeling Contemplative Photography**

Sheila Otto

12:30 – 4:00 pm, Friday, June 22 – 29 (2 weeks)

The Lourdes campus is the perfect setting in which to learn how to *make*, instead of just *take*, photos. Natural beauty, extraordinary architecture and an atmosphere of reverence combine to maximize the contemplative approach.

“Soulsnorkeling” is about looking more deeply into your experience. This class will focus on learning to see more mindfully. We will combine classroom introduction to the concept and practice with time to view and discuss the photos we have made.

This is not a high tech class about using your camera. This is one way to approach seeing differently. You can use the most complex SLR or the simplest of phone cameras. The class will take place rain or shine because there is much to photograph inside as well as

outside. The class begins June 22 with a week to practice the contemplative approach and concludes on June 29.

Sheila Otto knows the campus well from having spent 10 years as the college's first public relations director. She is a spiritual director and storyteller and the author of a book of stories, *All Stories Are True...Some Actually Happened*, *Soulsnorkeling: stories and art for looking below the surface*.

### **Rx for Laughter**

Barbara Mauter

10:00 - 11:30 am, Wednesday, June 27

Studies have shown that laughter can actually improve your health! Evidence shows that laughter establishes - or restores - a positive emotional climate and a sense of connection between people. While some researchers believe the major function of laughter is to bring people together, so join us as we take a look at the "lighter side of life" and laugh away many of our cares. Are you ready to have some FUN and laugh? We will take both a cachinnatory (laughing loudly) and a serious look at this prescription for health.

Barbara Mauter is an adjunct instructor with over 20 years college experience. She has taught and presented various workshops for the University of Toledo, BGSU, Monroe County Community College and Owens State Community College. She is also a Master Online Instructor. Barbara has recently completed ALC (Active Learning Classroom) Training, and is looking forward to incorporating new ideas into her workshops. Her interests center around thinking, reading and how our minds work. She is known for her critical thinking class activities. A participant in one of her "Thinking Outside the Box" courses had this to say: "The "memory" [course] was very good-- but this is "great!"

### **How Healthy is Your Family Tree**

Kathryn R. Lee

10:00 – 11:30 am, Thursday, June 28

Some diseases and disorders really do "run in families". Using family stories, letters, medical records, obituaries and death certificates, we can locate the ailments in our

family history. It's not only fun and interesting, but this information can let us take full advantage of the many resources now available. DNA analysis and genetic counseling are enhanced by family history information. Let's be better prepared for healthier lives for ourselves and our families.

Kathryn R. Lee, RN BSN Nurse Educator, has worked as a registered nurse for over 50 years in a variety of clinical and educational settings. She has been a family history researcher for three decades.

### **Effects of Vatican II on the Catholic Church**

Paul Mueller

10:00 – noon, Tuesday, July 10 – 24 (3 weeks)

The Second Vatican Council (1962-1965) changed the Catholic Church deeply in many ways. We will examine the council and the changes it brought about which are still felt today. For example, the council decided that Catholic Mass no longer needed to be exclusively in Latin and that lay people could be more involved in the operations of the Church. We will look at several of the documents decreed by the Council Fathers and consider how they have been put into action. These changes continue to confuse some and confound others. Discussion will be encouraged as we examine how Catholics today continue to feel the impact of Vatican II.

Paul Mueller is an adjunct instructor of theology at Lourdes University. He received his Master of Arts degree in theology at Lourdes in 2011, and he is continuing his studies in pursuit of his doctorate in theology at Duquesne University in Pittsburgh. He is an active member of St. Joseph Parish in Sylvania, Ohio.

### **Listening to the Movies, the sequel**

Dr. Christopher Williams

1:00 – 2:30 pm, Thursday, July 12 – 19

Musicologist Christopher Williams presents an in-depth exploration of four movies, each of which involves a different approach to the use of music in film. Learn how movie music connects the drama to our emotions in these archetypes: *Rebecca* (1940; Alfred Hitchcock, director; Franz Waxman, music); *Les Parapluies*

*de Cherbourg* (The Umbrellas of Cherbourg) (1964; Jacques Demy, director; Michel Legrand, music); *The Graduate* (1967; Mike Nichols, director; Paul Simon and Dave Grusin, music); and *The Grand Budapest Hotel* (2014; Wes Anderson, director; Alexandre Desplat, music). Students are encouraged, but not required, to seek out and watch these films before the course begins. This class is a sequel to the popular class on film music offered last summer, but please join us even if you did not take the previous class.

Dr. Christopher Williams holds a PhD in Music History and Literature from the University of California at Berkeley, and has taught at the University of Toledo, Bowling Green State University, the Universität Salzburg, and in the joint program of the Cleveland Institute of Music and Case Western Reserve University. He is considered an expert on the music of *Fin-de-siècle* Vienna.

### **Thinking Outside the Box: # 10 [X-rated!]**

Barbara Mauter

Wednesday, 10:00-11:30 AM

10:00 - 11:30 am, Wednesday, July 18

The "Thinking Outside the Box" challenge continues with our tenth class! The Roman numeral for 10 is "X" hence, an "X-rated" workshop? No, not so! Think again! An "X" may represent a kiss, or the name of a person that is not known. Join the TOB fun! This course will present more metacognitive activities ("thinking about thinking"). You will be challenged to explore lateral thinking, and take part in interactive "thinking" activities. This workshop will include a Top 10 of 10 plus, challenging and thought-provoking puzzles to stimulate your thinking. Note: Attendance in previous "Thinking Outside the Box" workshops is not required.

### **History of Hungarians in Toledo**

Peter Ujvagi

3:00 – 4:00 pm, Wednesday, July 18 - 25

Hungarian immigrants, like many others, came to America thinking the roads were paved with gold. They found out the roads were not paved with gold—actually the roads weren't paved at all, and THEY would have to pave

them! Since the first Hungarians arrived in Toledo in 1892, they created the Birmingham Ethnic Neighborhood and preserved their heritage through the architecture of their homes and churches, celebration of festivals and unique foods. Come learn about the colorful history, culture, and language of the Magyars.

Peter Ujvagi was born in Budapest, Hungary and immigrated to Toledo when he was 7. He has maintained strong ties with the Hungarian community through work with the Hungarian-American Coalition, the Hungarian Club of Greater Toledo, and the Birmingham Cultural Center. Peter served as a Representative in Ohio State House (2003-2010) and is currently a member of the Toledo City Council.

### **Eleanor Roosevelt**

Gail Conrad

10:30 - 11:30 am, Thursday, July 19

"A woman is like a tea bag—you can't tell how strong she is until you put her in hot water." Eleanor Roosevelt was a very strong woman indeed, as well as a political figure, diplomat and activist. Come hear a first-person account of the First Lady who regularly made public appearances on behalf of her husband, but also created a public life of her own. Though Eleanor's outspokenness was controversial at the time, she held regular press conferences, wrote a daily newspaper column, and hosted a weekly radio show. Even after Franklin's death, Eleanor continued her work, she was among the first US delegates to the United Nations and overseeing the drafting of the Universal Declaration of Human Rights.

Gail Conrad will portray Eleanor Roosevelt as part of the National Women's History Project and a member of the Toledo branch of the American Association of University Women.

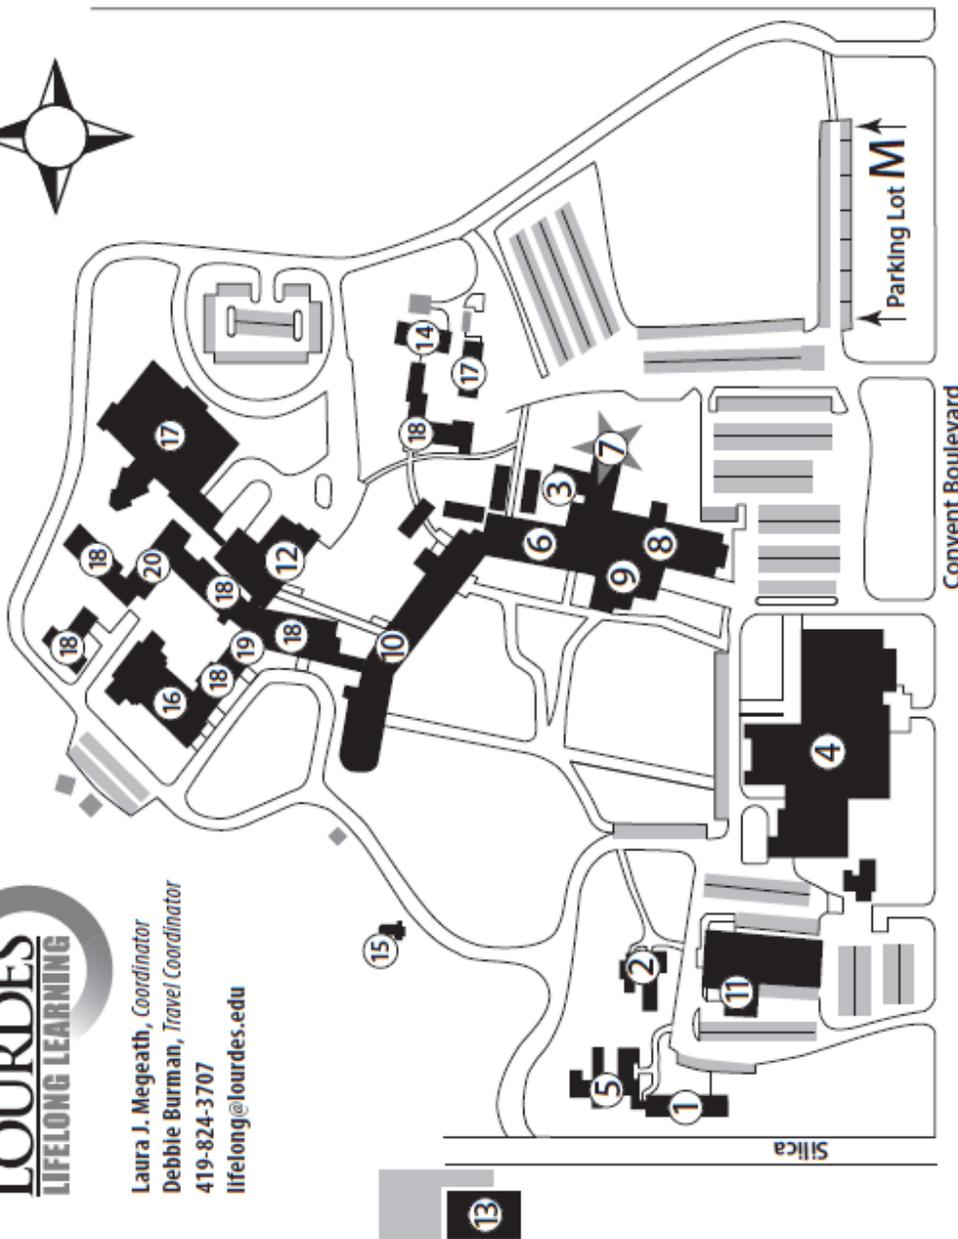

Do you have a talent or area of expertise you'd like to share?
