

The state of Ohio does not have licensure reciprocity with any other states. A Lourdes University Education Division student may apply for licensure in another state after they have received their Ohio license and with Lourdes University's recommendation for program completion. Lourdes University does not guarantee any individual student will be eligible for license in any other state.

Coursework and requirements will vary state by state. Each state decides whether they will award a license in their state. Additional testing, coursework, fees, background checks, and other requirements may apply for each.

The Education Division works to keep state requirement information updated. States are not included if a determination of eligibility for a Lourdes Education division degree in the state has not been made. Please contact the specific state's Department of Education for additional information:
